SONIGO Moving and Shipping Company

Attention: Mr. Joe Semel

To Whom It May Concern

Letter of Recommendation

With this letter, I would like to express my entire satisfaction with SONIGO Shipping Company, Israel, concerning the organisation and the actual handling of my incoming removal (approx. 100 cbm in 2 containers and 2 private cars in another 2 containers coming from the U.S.).

Mr. Joe Semel from SONIGO Co. has been in close contact with me and my wife from the very beginning of our contract. His information on the whereabouts of our containers was reliable and continuous and he had made sure – as promised - that delivery to our house took place immediately on arrival of the containers in Israel, even though several national holidays in the month of October made this kind of service very difficult and exceptional.

The unloading and unpacking itself has been handled with care and professionalism, the workers being extremely efficient; communication was not a problem since two of the handymen spoke a fair English; Mr. Joe Semel himself was in reach and present now and then in the course of the actual unpacking.

I highly recommend SONIGO Company and will not hesitate to employ their services again.

Berkner
